

Javier Morales

Dear Hiring Managers,

I am writing to you about the job you have posted for the mentioned position at your company. I am a hard-working and motivated Senior System Engineer, with over 10 years of experience in the IT industry, and I am ready for my next challenge.

In reviewing the attached resume, you will note that I have acquired valuable experience in all facets and fields of computer science, which led me to my interest in Cloud (Public & Private), and Virtual environments. Moreover, my work experience provides me with a well-rounded skill set, including SDDC, Linux, DB, Networking TCP/IP, VMware design and implementation, Amazon AWS, Veeam backup and disaster recovery, monitoring (Solarwinds), migration projects, P2V/V2V, Configure, Install/Deploy and Management Cloud environments and lately in Cybersecurity, among many others. With that said, I excel at providing support to customers, within multi-platform international environments and IT field exposure.

In addition to my experience, I have an educational foundation and passion for Cloud Computer Science, Solution architecture, as well as infrastructure security information. Currently, I have recently finished my Master in Cybersecurity, where I am gathering more experience and knowledge as a Pen Tester, Ethical Hacker as well as ISO 27001, and Internal Audits. I continually stay abreast of the latest advancements in the IT field.

After reading carefully the job description, I did realize that I could offer some value using my knowledge, experience, and gained skills. Due to my experience in the IT industry, I am confident that I am an excellent match for the job, and I would be happy to join your team.

Thank you for your time and consideration and look forward to hearing from you.

**Sincerely,
Javier Morales**

IT Systems Engineer/ Cloud Specialist
