Dear Hiring Managers,

I am writing to you about the job you have posted for the mentioned position at your company. I am a hard-working and motivated Security System Engineer, with over 12 years of experience in the IT industry, and I am ready for my next challenge.

In reviewing the attached resume, you will note that I have acquired valuable experience in all facets and fields of computer science, which led me to my interest in Cloud (Public & Private), and Virtual environments. Moreover, my work experience provides me with a well-rounded skill set, including SDDC, Linux, DB, Networking (TCP/IP & SDN), VMware design and implementation, Amazon AWS deployment and administration, Veeam backup and disaster recovery, monitoring (Solarwinds, Icinga), migration projects, DevOps and automation such as Dockers, Ansible and Puppet, Cybersecurity among many others. With that said, I excel at providing support within multi-platform international environments and in IT field exposure.

In addition to my experience, I have an educational foundation and passion for Cloud Computer Science, Solution architecture, also infrastructure security information. Adding to that, I have recently concluded a Master's in Cybersecurity, where I am gathering more experience and knowledge as a Pen Tester, Ethical Hacker as well as ISO 27001, and Internal Audits. I continually stay abreast of the latest advancements in the IT field.

After reading the job description carefully, I feel like I could offer some value using my knowledge, previous experience, and gained skills. Due to my exposure to the IT industry, I am confident that I am an excellent match for the job, and I would be happy to join your team.

Thank you for your time and consideration
Looking forward to hearing from you.

Sincerely,
Javier Morales

Security Engineer/ Cloud Specialist
